## **DETAILED ACTION**

### **Election/Restrictions**

- Claims 5-7 and 12-14 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Group II, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 30 April 2007.

### **Specification**

- The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

### **Claim Rejections - 35 USC § 102**

- The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

- Claims 1 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by Zhong (USPN 6,931,062 B2).

Regarding claim 1, Zhong discloses, determining whether to perform motion compensation on motion vector decoded data or not depending on a value of a decoded motion vector, determining whether to perform inverse discrete cosine transformation (IDCT) on motion compensated data or not depending on a plurality of values of

decoded DCT coefficients and generating a decoded image based on the results of the two determination steps (Please note, column 6, lines 1-19).

Regarding claim 8, arguments analogous to those presented for claim 1, are applicable.

### **Allowable Subject Matter**

- Claims 2-3 and 9-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
